Potential Exposure to Human Pathogen

Communication and Reporting Procedures

As part of their laboratory specific training, all employees under an Institutional Biosafety Committee (IBC) approved project that work with or come in contact with a human pathogen must be aware of the symptoms of disease caused by those pathogens. These symptoms are described in the Safety Data Sheet (SDS) for the pathogen. If the employee believes they are suffering from an exposure to the pathogen, they must inform their supervisor immediately. The supervisor must complete the First Report of Injury (FROI) form within 24 hrs and immediately notify EH&S, ORR, or Occupational Medicine.

Roles:

EH&S (Scenario 1) (515) 294-5359:
- If notified first, contact ORR and Occ Med
- Remind supervisor to complete FROI form
- Direct supervisor to the IBC Adverse Events form

ORR (Scenario 2) (515) 294-5412:
- If notified first, contact EH&S and Occ Med
- Direct supervisor to the IBC Adverse Events form
- Send out completed Adverse Events form to the IBC
- Notify NIH Office of Biotechnology Activities (OBA)

Occ Med (Scenario 3) (515) 294-2056:
- If notified first, contact EH&S
- EH&S will contact ORR
- Notify the Iowa Department of Public Health (IDPH) if the disease is reportable

IBC Chair/Member (Scenario 4):
- If notified first, contact ORR
- ORR will contact EH&S

Constant lines of communication are as follows (please see communication trees):
- ORR to IBC and NIH OBA (if rDNA is involved).
- EH&S to Occ Med
- Occ Med to IDPH
Scenario 1: EH&S receives initial notice
Potential Exposure to Human Pathogen

Employee or Person Exposed → Supervisor (Complete First Report of Injury)

EH&S

ORR

IBC

NIH OBA (if rDNA is involved)

Occupational Medicine

IDPH

Reviewed 2015
Scenario 2: ORR receives initial notice
Potential Exposure to Human Pathogen

Employee or Person Exposed → Supervisor → Complete First Report of Injury

And/Or

ORR

→ IBC

→ NIH OBA (if rDNA is involved)

EH&S

→ Occupational Medicine

→ IDPH
Scenario 3: Occ Med receives initial notice
Potential Exposure to Human Pathogen

Employee or Person Exposed → Supervisor

And/Or

Occupational Medicine → EH&S

EH&S → ORR

ORR → IBC

NIH OBA (if rDNA is involved)
Scenario 4: IBC Chair/Member receives initial notice
Potential Exposure to Human Pathogen

- Employee or Person Exposed
- Supervisor
- Complete First Report of Injury
- IBC Chair/Member
- ORR
- EH&S
- IBC
- NIH OBA (if rDNA is involved)
- Occupational Medicine
- IDPH
