SAFELY
EH&S is committed to its mission of preventing illness and injury, protecting the environment and connecting the university to the message of safety, health, and preparedness.

**Valued Connections**
EH&S will engage campus partners to create and support programs that are essential to our campus customers’ success.

**Goals**
- Engage campus groups to understand their specific needs, challenges, and opportunities.
- Collaborate with service units to streamline activities and avoid duplication of efforts.
- Strengthen relationships with trust and effective communication.
- Develop effective performance metrics and report progress.

**Prepared Campus**
EH&S will engage the campus community in planning and promoting programs to prepare for emergencies.

**Goals**
- Develop and implement emergency plans and procedures.
- Actively communicate emergency preparedness within the campus community.
- Integrate emergency preparedness activities into campus policies and procedures.
- Develop effective performance metrics and report progress.

**Health Matters**
EH&S will seek opportunities to protect health and the environment.

**Goals**
- Align with campus resources having common goals of well-being and injury and illness prevention.
- Evaluate environmental risks to provide strategies for the health and safety of the campus community.
- Promote participation in healthy lifestyles.
- Develop effective performance metrics and report progress.

**Safety Without Borders**
EH&S will provide environmental, safety, and health services to entities in the state of Iowa through extension and outreach activities.

**Goals**
- Build collaborative relationships with University Extension and Outreach.
- Pursue competitive funding sources for research, education, and outreach projects.
- Provide environmental, safety, and health services to state-wide entities where our expertise, knowledge, and capacity exist.
- Develop effective performance metrics and report progress.
