Dayton 7” Wheel Grinder

<table>
<thead>
<tr>
<th>Description</th>
<th>Wheel Grinder / Brush – Model: 4Z908D</th>
</tr>
</thead>
<tbody>
<tr>
<td>Size / Horse power</td>
<td>7” Wheels / 1/2 HP / 3450 RPM</td>
</tr>
<tr>
<td>Power source</td>
<td>120 volt through plugged power cord</td>
</tr>
<tr>
<td>Uses</td>
<td>Shaping wood and metal parts</td>
</tr>
</tbody>
</table>

Safety Precautions

Hazards

- Abrasions
- Flying debris (potential eye and face damage)
- Electrical shock
- Grinding wheel failure
- Entanglement of hair, jewelry, or clothing
- Sparks from metal grinding
- Fire risk if used near flammable or combustible materials

Training

- Shop Safety Fundamentals
- Site Specific Training

Protective Equipment

- Safety Glasses AND Face Shield
- Hearing protection

Operation

**Startup**
1. Put on PPE listed above
2. Ensure work area is clean and free of obstacles
3. Ensure all guards are present and function properly
4. Make necessary adjustments for safe operation
5. Inspect tool for damage or obstructions to operation
6. Turn on grinder using power switch located in center front of tool
7. Begin work
8. Slowly press work piece into grinder, avoid feeding material too quickly
9. Keep hands clear of spinning wheels

**Shutdown**
1. Remove work piece
2. Turn off tool using power switch
3. Allow grinder to stop on its own before leaving area

Maintenance

**Storage**

**Care**
- Grinder must be unplugged when changing wheels
- Only use grinding wheels rated for the speed of the grinder
- Use a dressing tool or block to clean and/or reshape grinding wheels

**Accessories**
- Dressing tool or block
# Checklist for Abrasive Wheel Equipment Grinders

**EYE SHIELD (OPTIONAL)**

**ADJUSTABLE TONGUE GUARD**

**SPINDLE GUARD**

**WORK REST**

**1/8' MAX.**

**FLANGE**

**3/8' MAX.**

<table>
