

TORNADO WARNING PROCEDURES GILMAN & HACH HALL

Alerts: Tornado warnings can be received through KCCI weather alert emails or internet weather web sites, via the campus alert system, or via audible tornado siren.

When an alert is issued, the phone tree below goes into effect.

Chemistry Phone Tree

**Nancy Olson (4-9414)
and/or
Carlene Auestad (4-7813)**

Alert each other
and office residents
↔

**Pat Augustin (4-6352)
and/or
Adam Wade (4-6361)**

Call occupants of
Gilman Hall (below)

↓
Call occupants of
Hach Hall (below)

When called, the individuals below will walk door-to-door on their respective floors alerting occupants of the tornado warning, it's duration, and the location of designated safe areas, if necessary. Designated safe areas are generally basements, interior hallways, and rooms without windows. Gilman 1002 and 1352 are designated safe areas, as are most interior hallways of Gilman Hall. Hach Hall residents should seek shelter in the basement.

Gilman Hall			Hach Hall
