Work in a shop at Iowa State University? Complete the following four tasks.

1. **Fire Safety and Fire Extinguisher Training**
   - Be prepared for a fire emergency by reviewing safety and emergency procedures, learning about common ignition sources, and by determining good practices for storing flammable and combustible materials.

2. **Shop Safety Fundamentals**
   - Learn the basic procedures and policies for academic shop settings. Identify hazards and control methods which will help minimize potential shop injuries to get you home safe.

3. **Emergency Response Guide Video**
   - Determine what to do in the event of an emergency on campus at Iowa State University by watching the Emergency Response Guide video.

4. **Worker Right-to-Know OSHA Hazard Communication Standard Training**
   - Identify operations in work areas where hazardous chemicals are present; describe the hazard communication program at ISU; and use a SDS to collect information on health hazards, risks and PPE for chemicals.
